

ANASS JID

Frontend Developer

Morocco, Agadir • Anassjidev@gmail.com • [Portfolio website](#) • [GitHub](#) • [LinkedIn](#) • +212 602 616 999

PROFESSIONAL SUMMARY

Frontend Developer with 5+ years of experience building modern web applications, SaaS platforms, business websites, e-commerce solutions, and interactive user interfaces. Experienced in developing scalable, responsive, and accessible frontend applications while collaborating throughout the product lifecycle—from translating designs into production-ready interfaces to implementing new features, integrating APIs, optimizing performance, and maintaining high-quality code. Focused on building intuitive digital experiences with clean architecture, reusable components, and long-term maintainability.

CORE SKILLS

Frontend

React · Next.js · Vue.js · Nuxt.js · Angular · JavaScript · TypeScript · HTML5 · CSS3

Styling & UI

Tailwind CSS · CSS Modules · Bootstrap · Responsive Design · Mobile-First Development · Design Systems · WCAG Accessibility

State Management & Data

Redux · Context API · TanStack Query · REST APIs · GraphQL

Animation & Interactive Experiences

GSAP · ScrollTrigger · Framer Motion · Three.js · React Three Fiber (R3F)

Performance & Architecture

Performance Optimization · Core Web Vitals · Code Splitting · Lazy Loading · SEO Fundamentals · Component Architecture

Tools

Git · GitHub · Figma · VS Code · npm · Yarn

PROFESSIONAL EXPERIENCE

Frontend Developer

Upwork • Remote

July 2025 – Present

- Develop modern web applications, SaaS platforms, business websites, landing pages, and interactive user interfaces for clients across multiple industries.
- Translate Figma designs into responsive, production-ready frontend applications with a strong focus on clean code, maintainability, and user experience.
- Build reusable component libraries and scalable frontend architecture to support long-term product growth and efficient feature development.
- Integrate REST APIs and GraphQL services to deliver dynamic, data-driven user experiences across modern web applications.
- Improve application performance, accessibility (WCAG), SEO, and Core Web Vitals to ensure fast, reliable, and inclusive user experiences.
- Collaborate directly with clients throughout the project lifecycle, from requirements gathering and technical planning to deployment, maintenance, feature enhancements, and bug fixes.

Frontend Developer

Self-Employed • Remote

August 2021 – Present

- Deliver custom websites, SaaS products, business applications, dashboards, and landing pages for startups, agencies, and growing businesses across multiple industries.
- Transform product requirements and UI/UX designs into responsive, production-ready frontend applications with a strong focus on usability, accessibility, and maintainable code.
- Build reusable component libraries and scalable frontend architectures that simplify future development and improve long-term maintainability.
- Integrate REST APIs, third-party services, and modern frontend tooling to create reliable, data-driven user experiences.
- Improve application performance, cross-browser compatibility, accessibility, and responsive behavior through continuous optimization and code refactoring.
- Partner with clients throughout the entire product lifecycle, from planning and implementation to deployment, maintenance, debugging, and feature enhancements.

SELECTED PROJECTS

Project Management Platform

Task Management • Kanban • Team Collaboration • Calendar

- Created a collaborative project management platform supporting task planning, Kanban workflows, calendar scheduling, and team collaboration.
- Designed reusable interface components and scalable frontend architecture to simplify maintenance and support future product expansion.
- Delivered a responsive, accessible, and performance-focused user experience across desktop and mobile devices.

Financial Analytics Dashboard

Analytics • Billing • Reports • Transactions

- Engineered a financial analytics dashboard for revenue tracking, billing management, transaction monitoring, and business reporting.
- Structured modular frontend components to improve scalability, consistency, and long-term maintainability.
- Enhanced application responsiveness, accessibility, and overall performance for production environments.

AI Workspace Platform

AI Workspace • Documents • Productivity • Automation.

- Designed an AI-powered workspace that combined intelligent assistance, document management, and productivity-focused workflows.
- Developed flexible dashboard layouts and reusable frontend components to support future feature expansion.
- Prioritized usability, accessibility, and responsive design while delivering smooth, intuitive user interactions.

SaaS Administration Dashboard

User Management • Analytics • Billing • Settings

- Built a modern administration dashboard featuring user management, analytics, billing workflows, and application configuration.
- Established reusable UI patterns and component-driven architecture to accelerate feature development.
- Optimized responsive layouts, accessibility compliance, and frontend performance across multiple screen sizes.

E-Commerce Platform

Product Catalog • Shopping Cart • Checkout • Orders

- Developed a complete online shopping experience including product discovery, detailed product pages, shopping cart functionality, and checkout workflows.
- Improved navigation, responsive layouts, and frontend performance to create a seamless purchasing experience.
- Implemented reusable frontend components following modern development standards and accessibility best practices.

Business Website

Landing Pages • Services • Contact • Brand Experience

- Crafted a modern business website designed to communicate services through engaging, conversion-focused user experiences.
- Integrated responsive layouts, interactive animations, and reusable interface components while maintaining fast loading performance.
- Delivered an accessible, maintainable, and production-ready frontend aligned with modern web standards.

CERTIFICATIONS

Meta Front-End Developer Professional Certificate	Meta
Microsoft Front-End Developer Professional Certificate	Microsoft
Advanced Frontend Development and Deployment	Packt
Bentley Accredited Developer	Bentley Systems
Frontend Development Libraries	freeCodeCamp
JavaScript Algorithms & Data Structures	freeCodeCamp

EDUCATION

Independent Frontend Development

Professional Frontend Development

Aug 2020 – Jul 2026

- Completed a structured self-directed learning path through real-world projects, professional certifications, technical documentation, and continuous hands-on practice focused on modern frontend development.
- Built production-ready web applications while strengthening expertise in frontend architecture, performance optimization, accessibility, responsive design, and maintainable code.
- Continuously expanded technical knowledge through modern development practices, emerging frontend technologies, and commercial client projects while maintaining an active professional portfolio.
